RETIRING—As already noted in last week's Textorian, George B. Fowler, above, is retiring August 1 as director of merchandising of converted twills, jeans, drills and corduroys. Mr. Fowler will conclude 46 years of service to the textile industry, the last 25 of them with Cone Mills.

IN NEW POSITIONS—As noted in last week's Textorian, Harvey Raymond, left, has been appointed to direct the merchandising of the Cone corduroy lines, and Thomas R. C. Hood, vice president, right, has been appointed to direct merchandising of twills and converted work clothing fabrics. Mr. Hood will be assisted by William Dribben, assistant vice president. (Photo of Mr. Dribben is not available.)

Three Named To Merchandising Posts

As noted in last week's Textorian, Cone Mills Inc., has appointed Thomas R. C. Hood, vice president, to direct merchandising of twills, and converted work clothing fabrics, and William H. Dribben, assistant vice president, to be assistant merchandising head in that department.

A further announcement was made, as noted, that Harvey F. Raymond will direct the merchandising of the Cone corduroy lines.

These appointments will become effective August 1.

Mr. Hood joined Cone Mills in 1942 as a sales representative to the resident buying trade in New York City. He served as a captain in the U. S. Marine Corps from 1943 to 1946, and on his return to Cone Mills was assigned the handling of several of the larger manufacturing and chain store accounts.

In 1948, Mr. Hood was made co-manager of the denim and covert department, and in 1950 he became assistant vice president, once again working on the manufacturing chain accounts. In September, 1950, he was recalled to the Marine Corps and served again as captain in Korea until June, 1952 when he returned to his position at Cone Mills. Mr. Hood was made vice president in April, 1954.

Mr. Raymond began working for Cone Mills in the mail room at the age of 16 during the summer and joined the organization full-time in 1935 when he handled samples and did clerical work. From 1937 until 1941 he worked as a sales representative in the towel division, traveling the middle-west, south-west and western territories. In 1941, Mr. Raymond returned to New York as a general sales representative to the New York cutting trade, and in 1945 joined the corduroy twills and work clothing department as assistant to the department head.

Mr. Raymond is an alumnus of Trinity College, a member of Delta Phi, a scholastic fraternity, and a member of the Arkwright Club.

Mr. William Dribben joined Cone Mills in 1937 as an office boy, and shortly thereafter trained as a sales representative, serving the New York cutting trade until 1939.

For the next two years he was assistant to the merchandising head of the department handling grey goods. (Continued on page 4)

WHITE OAK SUGGESTION—William C. Thompson, White Oak Plant Finishing Department employee, suggested placing tags on the cloth trucks to identify ones on which to place different lengths of cloth. This prevents confusion for the yardage sorter. Mr. Thompson has received a cash award for his idea.

22 Employees Hear Safety Experts

Cone Mills Corporation was represented at the Statewide Safety Conference in Raleigh, last week, by 22 employees from Proximity, Pineville, Edna, Revolution, White Oak and Tabardrey Plants, and Central Maintenance and Construction crews. Attending the General Session on Wednesday morning, they heard Governor William B. Umstead emphasize the tremendous cost of accidents to North Carolina and North Carolinians, and point out the small but significant progress that has been made.

Speaking on the "Human Side of Safety," Dr. Neal Bowman, a nationally known speaker, showed the audience laughing with his humor, he wove into his talk human interest stories exemplifying the dignity and importance of the individual in this country, and the good business of safe practices in our plants. Comparing the industrial worker to a baseball player, he said, "It's the number of times you get home safely that counts. Ty Cobb could never have hit safely with a cracked bat."

Dewey Dorsett, speaking on the same program, discussed the value of persuasion in the safety program. He told the audience, in effect, that employees and bosses need to be sold on safe operation. Guards and safety devices are usually provided but the man on the job can get hurt if he ignores safe practice.

At the opening meeting on Tuesday night, Dr. Kenneth McFarland, educational director of the American Trucking Association, made the keynote address commending the industries of the state for their progress and challenging them to greater efforts.

Cone employees attending the conference were: Proximity Plant, L. C. Hepler, Cletus Andrews, Fred Leonard, Raymond Collins; Pineville Plant, Robert Crews; Revolution Plant, Will Marshburn, Harry Stutts, Clarence Ritter, Johnnie Lowe; White Oak Plant, Norman Pinkelton, Walter Caviness, C. C. Henson, Pearly Elder, George Holder; Tabardrey Plant, Irwin Williams, Ruffin Ray; Edna Plant, Elizabeth Harviel; Construction, (Knox's men), Robert Peggam, Rudy Permar, Charles McLees; Central Maintenance, Pat Lambeth.

New Cone Safety Poster On Traffic

The newest Cone safety poster, now on walls or bulletin boards in most plants, is a double reminder. It is captioned, "These Lines are Warning Signs," and it shows a highway winding over a series of hills with double orange lines down its center.

The double orange lines represent the "margin of safety" needed to protect you, and your family, from injury whether on the highway or on the job. This reminder appears on a roadside sign on the left of the poster while a picture of a family: Mom and Pop, Junior and Sister, is shown on a similar sign on the right.

The margin of safety on your job is the time used to get the right tool, to use the tool properly, to clean up the oil on the floor, to stop the machine and use the safety lock, to lift properly and to get help if you need it, to pick up a bobbin or a piece of one, to put the truck in place instead of just giving it a shove, to pause and look before entering an alley, and many similar precautions. "It's Smart to Work Safely" and safe to work correctly.

The poster is to emphasize Governor William B. Umstead's safety campaign and to call attention to the close relationship between highway safety and industrial safety.

A United Front Needed

Editorial comment is generally based upon facts that the editor has gleaned from many sources. In some instances positive statements are made and definite conclusions are reached.

We realize that it is extremely difficult and very hazardous to attempt to evaluate the Indochina situation and also to base a positive opinion upon what is publicized as to the attitudes and actions of our allies.

For that reason, we are no doubt sticking our neck out pretty far this time in condemning the attitude of France and England toward our proposals in connection with the Indochina situation in particular and the Far Eastern situation in general.

We are not a bit happy over the situation as it has been reported thus far. It is very apparent that because of the lack of cooperation by France and England, the United States has been placed in a rather precarious and embarrassing situation.

Time and time again the United States has been called upon by the above nations to help them pull their chestnuts out of the fire. Our nation, in cooperating in the past, has not done so solely because of love for those two nations, but has done so because from a far-seeing standpoint it was determined that our cooperation and activity was necessary to preserve a free world.

At this critical time our leaders seem to believe that the free world is as much at stake now as it has ever been in the past. Our leaders, therefore, feel that a positive approach should be taken, and this positive approach should be backed up by an understanding alliance between the free nations of the world.

It seems to be definitely believed that weakness now, or victories by the Communists, would seriously threaten the entire Far East. It is also concluded that if the Communists continue to make headway, the entire Far East will fall under Communist domination.

Such an eventuality would unquestionably seriously imperil any hopes for world peace now or in the future.

If our State Department is serious, as we believe it is, then we feel that it is incumbent upon our major allies to support our program and present a united front.

Highland Plaids New At Cone Mills

Two authentic Scottish tartans head the new line of Highland Plaids at Cone Mills Inc. These are the Hamilton clan tartan in vivid blue and red, and the MacLeod dress tartan in black, sharply contrasted with yellow. Others patterns in the Highland series range from small, neat checks and medium sized plaids to bolder patterns in bright color combinations. There is a plaid with a modern feeling, combining muted shades of brown and blue which give the appearance of wool.

The Highland line was developed by Cone Mills especially to provide comfort and warmth without unnecessary weight and luxurious styling and colors at a volume price. The fabric is a 2x2 twill weave which gives the same sharpness and distinctiveness to patterns on the back as well as on the face of the cloth. It is well suited for men's and boys' shirts, for women's blouses and sportswear and for robes for the entire family. It is also adaptable for men's and boys' jacket and coat linings.

Scene in Shanghai in the form of a mural: Jimmy Oldham, Becky Craven, Billie Arnett, and Charles Morris. For an imaginary visit to China the entire class brought articles made in China, and made a display of two large tables. Each child has ready from the library many additional books on China and kept the list.

The class has also been enjoying the preparations of study about the N. C. Symphony that is coming.

A study of animals has proven to be not only interesting, but very enlightening to the pupils of Miss Heffner's fifth grade. They have enjoyed studying many of the ones brought to class by various pupils. Sidney Harris brought a garter

snake. After keeping him two weeks, the class voted to let him go. Bobby McCaskill brought a lizard, Charles Ruble brought muskies, and Linda Davis brought tadpoles and her pet duck.

Larry Kirkman and Phyllis Chrisco are both back in school after having had chicken pox.

Linda Steed went back to the Polio Hospital for a check-up last week.

The class is working on a chapel program to be given with Mrs. Lineberry's fifth grade. The speaking parts have been assigned and many of the dances chosen.

Linda Craven fell on roller skates about a week ago and broke her arm. Her classmates in Miss Schiffman's fourth grade are happy to have her back. Becky Cable is still out with measles. We hope she will be back soon.

The boys in Miss Schiffman's fourth grade have been playing ball against Miss Cox's boys. Miss Cox's boys are one game ahead right now.

Payrollers Defeat Proximity Office

The Umpire said "Play Ball," and that's just what the Revolution Payrollers did last Tuesday night when they played the Proximity Office Men's Softball Team in an exhibition game at Central Field.

It seemed as though the Payrollers coasted along the first two innings, allowing the Proximity Office to score four runs, but in the bottom of the third the Payrollers opened up with their big guns.

Little Ernie Pinkelton doubled; Spring Onion Taylor singled; Howard the Track Star Pickard tripled; Hard hitting Nick Whitfield tripled; James Where-do-I-play Lambert singled; Jimmy-the-fox Wheeler singled; Tom, the man with the curve, Lauderdale singled; and Ventry, the Iron Horse, Hinshaw drove a smashing home run.

The Proximity Office finally retired the Payrollers after scoring seven runs.

The Proximity Office team came back strong in the fourth and fifth innings, scoring one run each inning. However, due to the hard hitting of Pinkelton, Hinshaw, Kinney, and Lauderdale in the bottom of the fifth, the Payrollers scored four runs, and again proved themselves a hard team to beat.

The members of the Proximity Office team who won trophies for bowling have found out that there's quiet a difference in bowling and playing softball, especially with veteran pitchers like Hinshaw and Lauderdale.

The summary for the game was as follows:

Proximity Office, 6 runs off 11 hits, 3 errors; Payrollers, 11 runs off 17 hits, 5 errors.

The Proximity "Old Timers" won the Cone Mills Invitational Bowling Tournament last Saturday with a total of 1463 pins. Dan Hornaday, (313), "Pinky" Dyson (307) and D. O. Myrick (302) led their team to victory, proving that the "Old Timers" haven't lost their ability to bowl.

Excitement reached a climax when it looked as if the White Oak Y's Men had second place "in the bag." But Harvey Gordon (311) struck in his last check, beating the Y's Men by three pins to take the runner-up honors. Also bowling well for the Rayon were James Dodson (306) and Roger Johnson (295), while Bill Dagenhart (310) and Sam Wheeler (301) were the "big guns" for the White Oak Y's Men.

The Lab-Payroll team and the Proximity Plant team also were among the top favorites in the tournament, but after having tough breaks these two teams were out of the lead. James Weaver (306) and Bob Weaver (302) were the top bowlers for the Lab-Payroll while Robert Collins (302) and Jack Cole (297) led the Proximity Plant.

Other outstanding bowlers in the tournament were Carl Miller (296) Salisbury "B"; Willard Yates (317) and Ralph Miller (283) Salisbury "A"; J. D. McLendon (274) and Herman Ritter (272) Haw River; Will Marshall (302), Merlin Beaver (295) and Jesse Stephens (277) Revolution; Floyd Brooks (299) and Harvey Hester (294) White Oak Plant; Carl Sells (308) and John Sherrill (273) Proximity-White Oak Payroll; and Jim Fuller (313) and Bill Pennington (286) of the Proximity Goats.

High individual game goes to Jack Cole (Proximity Plant) and Harvey Gordon (Rayon) with a total of 123 pins each. High team game goes to the White Oak Y's Men with a total of 517 pins. High individual set and average goes to Willard Yates of the Salisbury "A" with a total of 317 and 105.2 pins respectively.

The results were:
Proximity "Old Timers" ---- 1463
Rayon ---- 1454
White Oak Y's Men ---- 1451
Lab-Payroll ---- 1448
Proximity Plant ---- 1437
Revolution ---- 1406
White Oak Plant ---- 1405
Proximity Goats ---- 1386
Salisbury "A" ---- 1380
Prox-W. O. Payroll ---- 1337
Haw River ---- 1301
Salisbury "B" ---- 1244

A combination of six "healthy" girls defeated a team of supple men in a bowling match last Friday night at the Proximity Y. It started

off by the men giving the girls 23 pins the first game, 50 the second, and then Monroe (Napoleon) Whitt gave them 100 pins the third game causing the men to loose by a total of 25 pins for the three games. Minnie Woods, Pearl Lamb, Carolyn Smith, Mildred Murchison, Betty Bryant and Marie Kinney were all outstanding bowlers for the girls team while Monroe Whitt led the men. (Where? To defeat.)

Looking To The Re-Election Of

AS MEMBERS OF THE

GUILFORD
COUNTY BOARD
OF
COUNTY
COMMISSIONERS

SIDNEY B. ALLEN

CHAS. J. HUNT

Both Mr. Hunt and Mr. Allen are now, and have been members of the Guilford County Administration which has given you sound and progressive government, and if re-elected pledge to you the continuation of this type of government in Guilford County.

As one of the many progressive steps promulgated by the present administration your attention is called to school expenditures for Greensboro, High Point and rural Guilford County over the past 20 years. Scarcity of materials practically eliminated any new school construction during World War II and for that reason the period prior to the war is contrasted with the period since the war.

FUNDS EXPENDED FOR NEW BUILDINGS AND IMPROVEMENTS FOR THE SCHOOLS DURING THESE TWO PERIODS ARE SUMMARIZED BELOW:

FROM 1934 THRU 1942 \$1,639,575.56
(OF WHICH \$992,500 WAS BORROWED MONEY)

FROM 1946 THRU 1954 \$8,802,892.36

Your special attention is called to the fact that the entire \$8,802,892.36 was FROM CURRENT INCOME AND NOT BORROWED MONEY.

If you favor this progressive program vote for those candidates who are committed to its continuance.

FOR
SHERIFF

For twenty-four years, I have served the people of Guilford County, as Deputy Sheriff. I am now asking you to vote for me as your Sheriff in the Democratic Primary on May 29, 1954. The service which I have given the people during these 24 years is better testimony than anything I can say about my qualifications. You are entitled to know just what kind of law enforcement department I propose for the protection of the people of this County. Briefly stated, my program would include a wider distribution of officers in order to insure a prompt and more adequate service for all parts of the County; and the development of a criminal division of trained officers devoting their entire time to combating crime in our County. I shall appreciate your vote and I will serve the people of this County to my very best.

Sincerely,
